Eric,

Thank you. I will call you next week to discuss your timeline for remediation.

Carmen

**Subject:** Holy Trinity Cemetery: 11-12-15 Update  
**Importance:** High

Good Afternoon:

I wanted to give you an update on the HTC removal action. Presently, I have submitted an action memo for the other radiological site in Niagara Falls. I am using that as the template for HTC. Once that action memo is approved, I will be able to submit the document for HTC. Both sites are very similar since the contaminated fill was used by both sites from the same source, Union Carbide. To clarify, an action memo is the decision making document that authorizes the funding for the action. If the other action memo is approved, we may start some work there during the winter months. This is due to the fact that the site has interior contamination to be addressed and this can be addressed during the colder/snowy weather. Also, there is a greater threat to the workers since there is contamination in the interior.

Please let me know if you have any questions.

Thanks

Regards,

Eric

Good Afternoon Mr. Coloa:

I am the EPA On-Scene Coordinator who recently conducted a radiological survey at the Holy Cemetery Property. As described to Father and Pete, we have collected the data and now I have to create an action memo. Once that action memo is finalized, approved and funded, we will begin removal of the contaminated material. As long as people are not disturbing the material (Mowing, digging, eating), there should be no health effects. The staff is aware of this. I have attached a map which designates the exterior areas of concern. There are no internal concerns in the office/chapel building based on our surveys and sampling.

Please let me know if you have any questions.

Thanks

Regards,

Eric

Eric,

Can you e-mail me the message you sent on November 12<sup>th</sup>?

I never received it.

Peter faxed me a copy of it. I want to e-mail some people at the Diocese to keep them in the loop.

Thanks.

Carmen
